**FOR IMMEDIATE RELEASE**

*Midwest Alarm Company announces the acquisition of A&M Radio security services.*

**SIOUX FALLS, SD. – October 11, 2005** - As of September 1, 2005, Midwest Alarm Company based in Sioux Falls, South Dakota has purchased the alarm accounts of A&M Radio of Aberdeen, South Dakota. Midwest Alarm will now be responsible for maintaining the alarm receiving equipment in the Brown County 911 Center. Midwest Alarm will also be responsible for new alarm connections and the maintenance of existing alarm customer emergency call out lists for accounts in Aberdeen and Brookings.

Midwest Alarm has hired Ron Bolduan, a 35 year veteran of A&M Radio, as their representative in Aberdeen and Brookings. Ron can be contacted at 800-303-1709.

“We are committed to continuing the personalized customer service that A&M Radio customers have come to expect, while also providing the community with access to the latest technologies to protect their homes and businesses”, says Larry McMillen, President, Midwest Alarm Company.

Founded in 1967, Midwest Alarm is a genuine South Dakota success story that has grown into one of the top alarm companies in the nation. Midwest Alarm designs, installs, monitors and services security solutions in homes and businesses throughout the region. Midwest Alarm provides thousands of clients with the most advanced burglar and fire alarm systems, closed circuit TV, access control, process and environmental monitoring systems.
