FOR IMMEDIATE RELEASE

Midwest Alarm Company is pleased to announce the following additions to its staff:

Jim Drey has joined Midwest Alarm as a Fire Systems Installation and Sales Specialist. In this position, he will help coordinate the design, installation and sales of all fire systems.

Drey, a native of Iona, South Dakota, brings over 8 years of fire safety system experience to Midwest Alarm, with specialties in installation, service and maintenance. Prior to joining Midwest Alarm, Drey worked with Automatic Building Controls.

Chad Weber has joined Midwest Alarm as an Engineered Systems Technician. In this position, Weber will install fire and security protection solutions, throughout the region.

Weber, a native of Mitchell, South Dakota, comes to Midwest Alarm after 6 years with Automatic Building Controls.

Founded in 1967, Midwest Alarm designs, installs, monitors and services security solutions in homes and businesses throughout the region. Midwest Alarm provides thousands of area clients with the most advanced burglar and fire alarms, closed circuit TV, access control, process and environmental monitoring systems.
