FOR IMMEDIATE RELEASE

Midwest Alarm hosts Pelco Mobile Product Showcase

SIOUX FALLS, SD. – July 18, 2005 - On July 18th & 19th, Midwest Alarm Company hosted the Pelco Mobile Product Showcase at its [Sioux City](#) and [Sioux Falls](#) offices. The events provided great opportunities for key Midwest Alarm clients to get a first hand look at the latest in Pelco technology. Pelco is a world leader in the design, development, and manufacture of video security systems and equipment. The Mobile Product Showcase is a cross-country, traveling mini-Pelco on wheels. Staffed by experts in video security, the MPS is always on the move – visiting end users, dealers, distributors, integrators, consultants and government entities across the nation. Producing a large selection of discreet camera domes and enclosures, cameras, next generation DVRs, video matrix systems, hybrid and IP solutions, fiber optic transmission systems for voice/data – and much more – a visit to the MPS offers everyone the opportunity to see and – more importantly – to experience for themselves, the power and functionality of Pelco's video security solutions. For more information about the Pelco Mobile Product Showcase – please visit its Web site at www.pelco.com/mps/.

Founded in 1967, Midwest Alarm designs, installs, monitors and services security solutions in homes and businesses throughout Siouxland. Midwest Alarm provides thousands of area clients with the most advanced burglar and fire alarms, closed circuit TV, access control, process and environmental monitoring systems. For more information about Midwest Alarm – please visit www.midwestalarm.com.
